# La veille technologique avec Inoread

Explorez comment nous exploitons les fonctionnalités Inoread pour choisir, catégoriser, annoter et partager de manière efficiente des informations importantes. Notre but est d'intégrer cette activité de veille dans le cadre du projet "Menu Maker" by Qwenta, apportant des informations cruciales pour guider le développement et établir les spécifications du projet.

Seeking Advice: Running Migrations Through Pipeline to MongoDB

MongoDB

I'm currently working on a project that involves managing migrations in a MongoDB environment, and I'm seeking some insights from the community. Are there any recommended tools or frameworks specifically designed for handling MongoDB migrations? Is there any script that I can use in mongosh for

Expensive Mongodb Search Nodes

MongoDB

Hi everyone, need some advise on how I can lower the cost on mongodb search nodes or maybe there should be a different approach rather than spinning up a dedicated node just to do faster search. For the use case, we have a few million data on mongodb and we are querying it constantly, we have leveraged...

MongoDB connection limit exhausted in AWS lambda

MongoDB

I am using pymongo to connection with dedicated Atlas (M10) database. Mostly I do write operations. This is a cronjob (triggered weekly once) where we fetch data and store it in MongoDB. write operations happens up to 100,000 objects. Duration for the operation to write is not in priority as I this is...

## An illustration on a teal background showing a person in a red shirt and blue pants writing on a large, white scroll that is emerging from a laptop screen. The scroll has horizontal lines representing text. To the right of the person is a white mug filled with dark coffee. Above the laptop, there are two floating icons: one with a red heart and another with a blue thumbs-up. In the foreground, there are two small, green, square-shaped objects with white circles on them, resembling stylized leaves or tiles.

Inoreader prend en charge un large éventail de sources de contenu, y compris les flux RSS, les sites web, les newsletters, les médias sociaux, etc.

Inoreader propose des options de filtrage avancées, ce qui peut être utile pour affiner précisément le type de contenu que vous souhaitez recevoir.

Les options de marquage dans Inoreader sont étendues, vous permettant de catégoriser, organiser et annoter votre contenu de manière plus approfondie.

## Add new folder

Besides organising, folders give you the ability to control articles' unread duration, export HTML clips, and remove duplicate articles.

New folder

Add feeds

# La diffusion

## Partage via Liens Publics

Partage des liens publics vers des articles, des dossiers ou même votre flux entier. Vous pouvez générer un lien public et partager l'accès à vos informations avec d'autres personnes, même si elles ne sont pas utilisatrices d'Inoreader.

## Partage par Email

Inoreader vous permet de partager des articles ou des dossiers par e-mail. Vous pouvez envoyer des résumés d'articles avec des liens directement depuis l'interface utilisateur.

## Réseaux sociaux

Inoreader propose des intégrations avec plusieurs réseaux sociaux. Vous pouvez partager des articles directement sur des plateformes comme Twitter, Facebook, LinkedIn, etc., en un clic.

How do you handle unit testing when using MongoDB?

MongoDB

I'm working on a project where we have a lot of logic around records inserted in database. Considering that the majority of the tests are inserting records and therefore, writing data to the disk, what should be the default approach for speeding up the tests? Is there an in memory alternative for the...

# Conclusion

Notre utilisation d'Inoreader pour la veille technologique nous permet d'incorporer de manière efficiente les dernières avancées technologiques dans le projet "Menu Maker" by Qwenta. Cela nous aide à guider le développement et à définir les spécifications tout en restant à la pointe de la technologie. Grâce à cette approche, nous sommes en mesure de fournir continuellement des solutions innovantes à notre client.
